Spill or leak procedures /Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Use personal protective equipment. Avoid inhalation of dusts or aerosols.
Ensure adequate ventilation.
Ventilate area of spill.

Environmental precautions:

Prevent entry into waterways, sewers, basements or confined areas.

Methods and materials for containment and cleaning up:

Pick up and place in a suitable container for reclamation or disposal, using a method that does not generate dust.

Section 7
Handling and storage

Precautions for safe handling:

Avoid direct contact with skin and eyes. Avoid inhalation of dusts or aerosols. Wash thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice.
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking.
Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage, including any incompatibilities:

Storage: Keep only in original container.
Avoid large temperature changes and store in a cool, dry, area and away from direct sunlight.

Keep containers closed when not in use. Store at 15°C-25°C.

Section 8
Exposure control / Protection information

Control parameters

Occupational exposure limits: N/A

Exposure controls

Engineering measures: Use process enclosures, local exhaust ventilation, or others engineering controls to keep airborne levels below recommend exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Person protective measures

- Respiratory protection: Disposable particulate mask.
Be sure to use an approved/certified equipment or equivalent equipment. Wear appropriate respirator when ventilation is inadequate.
- Hand protection: Wear protective gloves to prevent skin exposure.
- Eye protection: Splash proof chemical safety goggles should be worn.
- Skin protection: Laboratory coat. Wear appropriate long-sleeved clothing to minimize skin contact.

During normal and non-professional/long time exposure use of the productt no personal protective equipment is required. However, in case of manufacture or spillage, use as appropriate to the size of the spill.
